

CS 440 Meeting Minutes

Group 3 Date: 9/23/23 Time: 8:30 Duration: 3 hours

Present, on time: Bilal Naseer, David Cárdenas, Umar Khan, Daniyal Khan

Present, not on time: N/A

Absent: N/A

Synopsis: After a review of the scope of our coding application, we've decide we are going too wide and need to rationalize the prototype to build. Instead of utilizing an established api and data sets Daniyal and David will create our own mocks api's and datasets.

Finalized preparations for the Development Project. Finalized the slides for presentation and began finalizing part 1 of the report template.

Recent Accomplishments:

1. David - Finalized the choice of database and API, decided instead to build our own mock apis for prototype use
2. Umar - Initial prototype of the UI completed.
3. Bilal - Structured the development project presentation and established main focuses and priorities.
4. Daniyal - assisted with main information on development project slides

Current Activities:

1. Daniyal is Establishing the mock dataset of recipes
2. David is working on the mock map locations for grocery stores
3. Bilal and Umar are continuing work on the UI utilizing pair programming
4. As a collective, working on the report and the presentation

Next Steps (Action Items):

1. David - Implement an integration with the some mock Maps API for ingredient location features. Evaluate performance and accuracy.
2. Daniyal - Complete the setup of the mock dataset and integrate with application
3. Umar - Finalize the UI main pages
4. Bilal - begin creating user management profiles
5. All - Schedule a review of the current development project presentation.
